

My first resume

Time

Approx 45 minutes

Objective

This activity is a fun way to show children how their interests can be translated into job skills.

Materials

- Pens and pencils
- Copies of resume template.

Procedure

Start with a brainstorm. Pose the following questions to the group and compile a list of answers on the flip chart:

- Does everyone know what a resume is?
- How do you think you can impress someone that is reading your resume?
- Have you ever thought about writing a resume?

Hand out a copy of the template to all children.

Allow about 15 minutes to complete the template.

Discussion questions

Ask the children to share their answers:

- What types of jobs/goals do you have mind?
- How do you think you can achieve them?
- What type of activities or hobbies do you currently have that can translate into a job?

Sample conclusions

- Share how amazing the resume looks.
- Encourage the children to take their resume home to share with their parents.
